

Receipt Quality Breakthrough!

IJ7000 Series

Teller Receipt & Validation Printer

Addmaster has been trusted by banks as a leading manufacturer of quality products for over 45 Years. The first to bring inkjet technology to bank receipts, Addmaster has installed hundreds of thousands of teller printers since 1990.

This fourth generation inkjet continues Addmaster's tradition of quality and innovation. Our new cartridge sets the standard for print quality and makes the IJ7000 the top performer in its class. This teller-friendly printer is packed with features that make it easy to use and simple to interface.

New Cartridge Boosts Print Speed and Resolution

- Quiet Inkjet Printing
- Gray-scale Graphics & Logos
- Better Quality Print
- Highest OCR Read Rates

High Speed Printing

Here's a remarkable achievement - Ink jet printing at up to 14 lines per second!

The fastest printer in its class - the IJ7000 reduces transaction time, leading to greater customer satisfaction.

Automatic Form Positioning

Our patented device aligns the form automatically, so print is consistently in the same location. It's ideal for banks that image documents . . . read rates can be greatly improved over competitive models.

Full Length Validation Slot

With its flexible full length slot, the IJ7000 offers maximum flexibility to print on a wide variety of bank forms - deposit slips, cash tickets, checks and more.

Small Footprint

The IJ7000 continues Addmaster's tradition as the footprint leader. No printer can compare with the compact size of the IJ7000.

Addmaster IJ7000 Series Receipt & Validation Printer

Print Method

Thermal Inkjet

Ink Cartridges

IJ7100: Part #95842 (96 x 144 dpi)

IJ7200: Part #97091 (300 x 288 dpi, 600 native dpi)

Print Speed

IJ7100: 5 lines per second at 42 characters / line
10 lines per second at 10 characters / line

IJ7200: 8 lines per second at 42 characters / line
14 lines per second at 10 characters / line

Receipt Paper

Roll: Width 3" x Diameter 3" (76mm x 76mm)

Print Zone: Width 2.75"

Form Size

Minimum: Width 5.5"

Maximum: Width Unlimited

Form Print Zone

IJ7100: 2.75" wide, top line at 1.54" from form bottom
(Prints 6 lines above MICR line, 8 lines if no MICR)

IJ7200: 2.75" wide, top line at 1.1" from form bottom
(Prints 4 lines above MICR line, 6 lines if no MICR)

Microprocessor

ARM 7

Code Emulations

Epson, IBM, DH, others by request

Options

Automatic Form Positioning

Metal Tear Bar (Clear Polycarbonate Tear Bar standard)

Paper Roll Holder Arms (replaces covered roll holder)

Form Holder Bracket (replaces covered roll holder)

Interface

Two Ports Provided: 1 USB 2.0 and 1 Serial RS232

Serial Baud Rate

9600 or 38400 (Dip Switch Selectable)

Power Source

24 VDC, 1A External Power Supply

Product Metrics

Width 7.0" x Depth 6.2" x Height 3.6"

Width 7.0" x Depth 9.2" x Height 4.6" (with paper holder)

Weight: 2.9 lbs. (1.3 kg)

Shipping Weight: 4.4 lbs. (2.0 kg)
