

CARDS ON THE SPOT™ for Cardmint printers

Secure Financial Instant Issuance is a new must for any Financial Institution examining new ways of making and saving money: branches need to deliver a high-quality customer experience that is fast, hassle-free, and highly personalized yet establishes deeper relationships.

Cards On The Spot™ Prestige provides a complete, fully-integrated browser-based solution to instantly issue multiple high-quality printed card types – ATM, debit and credit – using the Panini Cardmint FX retransfer printer. It is EMV-ready, is Visa and MasterCard compliant, and it includes up to 15 flatcard designs, along with the ability to design your own custom cards.

The **Single Sign On (SSO)** feature allows Windows® credentials to be used for validation, making the use of the system even easier. The Executive Dashboard feature offers graphical display of issuance and system statistics, providing a powerful and friendly reporting tool.
