

Vision X[®] MFS

Panini's Multi-Function options provide a modular solution designed for customer-facing environments, built around the market leading Vision X platform. The resulting assembly minimizes and optimizes cabling typically found at the teller station within a compact footprint that combines thermal receipt printing, full page scanning, card reading, and batch check scanning.

A Complete Multi-Function Centered on Teller Needs

The Panini MFS is the perfect solution for financial institutions deploying branch image capture at the teller, who are also looking for a way to improve productivity, consolidate counter space and improve customer satisfaction through efficient branch automation.

Functions provided by the Vision X MFS include check scanning, validation printing, roll-tape receipt printing, magnetic card reading, smart card reading, full page scanning, rigid ID card scanning and an open USB port for extension to additional modules.

The MFS offers extensive benefits you've come to expect from Panini

- Architected as a **true modular multi-function system** to support a broad range of teller functions, facilitating real branch automation.
- **Ergonomically** designed for ease of use and streamlined operations.
- The **flexibility** to configure the solution to your precise needs.
- Extremely **small footprint**, essentially using the same space as the existing check scanner for a number of additional functions, freeing up valuable work space for the teller.
- Based on the **world's leading check scanner**, the Panini Vision X, with close to a million installations world-wide, offering the industry's best price performance ratio.
- Complete **investment protection**, allowing customers to utilize existing or new Panini scanners with the flexibility to deploy only the modules needed, at the time they are needed.

- Panini ISO-9001 certified processes and product design ensure market leading quality and **reliability**.
- Uses thermal technology for the **fastest, quietest and lowest cost** receipt printing available.
- **Optimized cable management** with a single USB cable and single power cable to support all modules, resulting in better use of counter space and easier installation and support.

Vision X[®] Multi-Function System

Integrating Multiple Teller Processing Technologies

Thermal Receipt
Printer

Check Scanner

With optional AGP (Advanced Graphics Printer) for check validation and/or endorsement up to four lines.

Page Scanning
Docking Station

Panini's Scanning Technology:

Contact Image Sensor (CIS) technology; dual sided image capture.

Image format: Bitmap in B/W, 256 shades of gray, TIFF, JPEG and Group IV compression.

Image: resolution of 100/200/300/600 DPI.

Advanced Dynamic Thresholding.

Superior auto calibrated image quality.

Dual image: 4 images (2 front, 2 rear) plus a max of 10 uncompressed snippets per document.

Open USB Port

1 port to page scanning module, 1 to Vision X, 1 to receipt printer (integrated USB+power cable), 1 open for external peripherals connection - alternatively usable for optional smart card R/W.

For ergonomic connection of additional USB peripherals, such as a barcode pistol or signature pad.
